ACADEMIC INFORMATION

ESACM presentation

Since 2006, ESACM has been housed in a new 5000m2 building specially designed for its needs in the heart of the university quarter. Developing a programme of generalist education in the visual arts within its ‘art’ department, ESACM pays close attention to all areas of contemporary creativity: drawing, painting, printing, space as volume, photography, video, film, contemporary art, history of art, philosophy and general culture. Renowned artists and art specialists, all of them strongly rooted into the field of contemporary creation, are in charge of the students’ education. In the meantime, around thirty outside personalities such as artists, philosophers, researchers, theorists, writers... are invited every year to take part in the courses.

## Programs Open to International Application

The degree programs open to international exchanges applicants are:

**Bachelor Programs / Art**
- **Second year**: semester 3 (30 ECTS) or semester 4 (30 ECTS)
- **Third year**: semester 5 (30 ECTS). The school do not accept exchange students in semester S6, too many credits are devoted to the bachelor diploma. Students accepted in the semester 5 could be allowed to stay for the second.

**Master Programs / Art**
- **Fourth year**: semester 7 (30 ECTS) / semester 8 (30 ECTS)
- ESACM do not accept exchange students during the fifth year of the curriculum, too many credits are devoted to the master thesis and the diploma.

## Mode of Study

**Training is carried out on a full-time basis.** It comprises Teaching Units (UE) which combine Lesson Units (UC) with various formats (lectures, theory and practice, seminars, tutorials, studios, interviews, workshops, training etc.). In some Teaching Units, students may decide to choose Lesson Units for obtaining the 30 ECTS required for validating their semester. This method promotes the choice, initiative and commitment of students who are responsible for their course and who build up the way it moves forward.

**Regular and active attendance to courses** is compulsory at ESACM; this will be part of the assessment criteria.

## System of Assessment

**Two types of assessment** are used together: on-going assessment by heads of each Lesson Unit and at the end of each semester assessment by a teachers' college. The incoming students will be assessed in the same conditions as the ESACM students. If necessary some part of the work and of the assessment could be done in English (written statement on the work, oral presentation...)

**Credits are awarded in relation to both quality and quantity** (attendance, motivation, quality of work produced, dialogue with teachers). For proper assessment of work and projects undertaken, credits are scored using local scores graded from 0 to 20. An average score of 10 out of 20 is required within each UC for acquiring the corresponding credits. To ensure results are comprehensible worldwide, **local scores are converted to ECTS points in line with EU norms**. A comparison table with numeric and ECTS grading scale is provide with the transcript of records.

## Language Courses

**The language of instruction at ESACM is French.** Even if some individual tutorials, work presentation, essays can be done in English if necessary, knowledge of French is highly recommended to fully take advantage of the exchange program.

**French lessons:** The students may attend French courses at the university. The cost is 350€ for one semester (50 hours). Students have to inform the coordinator, before their arrival, if they want to attend these courses.
